Administrative Sign On

In this chapter you learn how to work with the Administrative Sign On. This includes setting up security records, maintaining your system file, creating and updating cashiers, printer maintenance for AFP/HPT printers, warrant and ticket upload authority, updating and printing the SOS code file and use of the professional file reassignment. Also included are Output Queue, printing options, submitted jobs, and printer messages.

User and Password

At the AS/400 Sign On screen:

- 1) In the *User* field, type in the court ID followed by ADMIN, i.e. D1500ADMIN.
- 2) Type the password. (Typically known to the Court Administrator.)
- 3) Press ENTER.

Menu Overview

	District Selection & Operator Menu Options			
#	Description	Purpose		
1	Program/Menu Access Authority	Create, update and maintain access to all modules for each user profile. This also allows the court to define the name to appear on the Clerk field when printing various forms. Printer output may also be controlled here.		
2	System File Inquiry/Update	Stores the court address, phone numbers and printers used on various reports and forms. This is also where the abstract, ORI numbers and Signature Line information for Abstracts and FACs is stored.		
3	Authorized Cashiers/Passwords	Define or update users and passwords to function as cashier(s).		
4	AFP/HPT Printer Maintenance	Court may define a laser printer as an AFP/HPT printer. This will produce forms closely resembling those in the SCAO Approved Forms Book.		
5	Warrant/Ticket Upload to Case Entry Authority	Grant individual user profiles the ability to upload complaint and warrant information for the prosecutor's office or upload tickets from a police agency.		
6	SOS Code File Update	Contains ALL the SOS codes for the court. This file controls the types of notices to generate for each charge. It also determines whether the offense qualifies to be reported on different administrative reports.		
7	SOS Code File Print	Prints all the offenses and criteria set in the SOS Code File Update.		
8	Professional File Reassignment	Allows court to reassign cases in a batch from one professional or badge number to another.		

Program/Menu Access Authority

Select **Option 1** (Security/Program Access a security record for each user. This allows the court administrator or designee to limit users from viewing, updating or deleting in certain modules or code files. This must be set up to allow users access to the District Court Software. The security may be changed as necessary. After selecting **Option 1**, the following screen will appear with blank fields.

User Name : <u>DIANE C SMITH</u>
Form Signature: <u>D. SMITH</u>

(PRESS ENTER TO UPDATE)

F5-Work Outq F9-Print All F10-Detail F23-Delete F24-Previous Page/Roll

Enter the User ID and name of the person that is being secured. The Form Signature line is what will print on the clerk line of any form generated by the system and is *optional*. Once the information has been filled in on the screen, press **ENTER** to update the user name and form signature line.

You may print the security file for all users by pressing F9. This printout will go to the Traffic/Criminal Default printer output queue, as specified in your system record (see page 1-6) and can be retrieved by pressing F5 from this screen.

Press F10 to view, add and/or update a security record. To delete a user from the security file, type the user ID on the Secure User ID field and press F23. Press F23 again to confirm the delete.

After pressing **F10**, the following screen will appear:

User Id: D9990DCS DISTRICT COURT PROGRAM ACCESS 1 of 7 Authorize Same Authority as User Id: Outq: Module Access Y Cash Y Civil Y Probation Y Traffic/Criminal Y Code Files Print Y Code Files Update Cash Programs Y Cash Online Y Web Cash Y Reports Y Report Generator Imaging Y Image Scan Y Image View Miscellaneous Y CHR Update Y Warrant Entry Enter-Update Page/Roll F9-Print User F24-Previous Menu

If a user moves from desk to desk and you would like their output to go to one specific printer, type that printer name in the Outq field, i.e. PRT02. Otherwise, leave it blank. When first implementing security for a user, you will need to page through all seven screens in this file and decide which modules, screens or options you want the user to be able to access. Change any field to "N" (no) to deny the user access. When you have finished updating a user, press **ENTER**. *Upon pressing enter, a message will appear verifying that a user has been updated*.

If you have set a security file on a particular user, you may "copy" the same security profile for another user by typing in the secured User's ID in the Authorize Same Authority as User Id field and pressing **ENTER**.

System File Inquiry/Update

This file is set up before implementation and contains the court address, phone numbers, abstract number, ORI number and Abstract/FAC/RLF/NOA signature line information. It also displays the court identification, caseload identification and system printers.

Option 2 (System File Inquiry/Update) is where the software retrieves the court address and phone numbers to print on various forms. Designated printers are stored in this file to allow the Traffic/Criminal forms to go to a specific printer while Civil forms may go to another printer. Other printers that may be set up in this file would be specific for labels, ROAs and restricted licenses/NOAs (if printing on the form DS1-22, instead of 8x11 plain paper).

Field Descriptions System File Inquiry/Update				
Name	Description			
Address	The address of the court. This will appear on all forms and reports printed.			
Caseload Court ID	The Court ID number assigned by SCAO that is associated with uploading caseload data to the web.			
County	The county the caseload and transmittal are reporting for.			
Phone	A phone number for each division may be specified and will appear on printed forms. The court also has the option to only use the General number field. The General number field is a required field even if the court chooses to also identify divisions individually.			
Abstract Number	The number assigned by Secretary of State to identify the court submitting abstracts, FAC/FCJ/FCPV, Restricted Licenses or NOAs.			
ORI Number	The number assigned by State Police to identify the court submitting or retrieving anything to do with LEIN/CHR. It also prints on various forms.			
Signature Line	The name on the signature line will be retrieved for Abstracts, FACs, Restricted Licenses and NOAs.			
Court	The court number as assigned by statute.			
Second/Third Court Location	This field to used to identify a multiple site court location.			
Printers	The printer identification for specific divisions and purposes identified.			
TC/Default	This is the main printer for all traffic/criminal daily date generated notices. Reports requested via the Reports Menu will also be directed to this printer.			
Civil	This is the main printer for civil daily date generated notices. If the field is left blank, civil daily date generated notices will default to the TC/Default printer.			
TC/Roa	The printer for all traffic/criminal batch ROAs. This allows the court to request the Traffic/Criminal ROAs anytime of day and they will print without having to answer messages to load the form. If left blank, all ROAs will default to the TC/Default printer.			

Labels	The printer for all labels, traffic/criminal or civil. This allows the court to keep labels loaded in the printer and when labels are requested, they will go to a ready status and print without answering messages to load the form. If the field is left blank, labels will default to the TC/Default or Civil printer.
Civil/Roa	The printer for all civil batch ROAs. This allows the court to request the Civil ROAs anytime of day and they will print without having to answer messages to load the form. If the field is left blank, the ROAs will default to the Civil or TC/Default printer.
Rest Lic/NOA	The printer for the Restricted License forms (DS-21). Note: If printing Restricted Licenses or NOAs on 8x11 paper, do NOT indicate a printer in this field.
Enable Backup	Refers to the courts ability to backup data. This field will always default to "Y" (yes).

Setting Up Authorized Cashiers and Passwords

Before the Cash system will allow a cashier to process cash transactions, that cashier must have an authorized password. These passwords will be set up at the time of implementation. The Court Administrator will be given the Administrative Sign-on and password to update the cashier passwords as necessary.

The menu displayed below will appear after using the Administrative Sign-on. Select **Option 3** (Authorized Cashiers and Passwords) and press **ENTER**.

After selecting **Option 3**, the following screen will appear:

Enter the initials, name and password, which will not display on the screen, of the cashier that is being authorized to process cash transactions. The password may not be the same as the cashier's initials or the same initials of any user profile on the system. A cash password can be numeric, alphabetic or a combination of both.

After this process is complete, cashier(s) must Open for Day to begin processing cash transactions.

This option allows a court to add/change/delete/view printers set up for Advanced Function Printing or Host Print Transform (AFP/HPT). AFP/HPT is a printing feature that produces forms that more closely resemble the pre-printed forms in the SCAO Approved Forms Book.

JIS supports the AFP feature if:

 You have a IPDS (Intelligen Printer Data Stream) laser printer and have loaded the latest CUM PTF tape from IBM

JIS supports the HPT feature if:

- Your operating system is at OS400 4.4 or greater (See page 1-15)
- You have a laser printer that is a:
 - Lexmark
 - IBM
 - Hewlett Packard

The manufacturer type and model is listed in the device description for your printer. See pages 14-21, of this chapter, for instructions on printer HPT setup. If your printer is physically attached to a PC, you MUST use Client Access.

The printer/outq definition is used by the District Selection and Operator Menu to determine whether the selected Printer Writer/Output Queue is an IPDS AFP (Intelligent Printer Data Stream Advanced Function Printer) printer or not. If a record exists with the printer/output queue name, the printer will print AFP or HPT. If a record does not exist with the printer/output queue name, the printer will not print the AFP or HPT forms.

To add, change or view an AFP/HPT printer, select **Option 4** and press **ENTER**. The window displayed below will appear.

You may use the options in the window simply by typing the corresponding number that applies in the option field, i.e. 2 if you wish to change a printer description, 4 to delete or 5 to display only. Press **ENTER** after typing your option.

After pressing **ENTER**, the following screens will appear:

Offset refers to the distance in inches where printing should start on the page relative to the edge of the paper.

IPDS printers do not use the offset values. These fields MUST be left blank.

For HPT printers, we suggest using **0.16 down** and **0.25** across. These settings may need to be adjusted based on your type of printer. Values cannot exceed 57.79

To change from an AFP/HPT printer to a non-AFP/HPT printer, delete the printer record.

Type over any information you wish to change, press **ENTER** and then F3 to exit the prompt window.

To check the version of your Operating System:

- Sign on with QSECOFR. (Password known to Court Administrator)
- At the command line type: DSPPTF; press ENTER
- The Operating system and release version are located on the screen to the right of "Release of base option." For example: V5R1M0 stands for Version 5, Release 1, Modification 0. See sample on page 1-18.

If the Release of base option is <u>not V4R5M0</u> or greater, F3 to Exit and <u>STOP</u>. JIS does not support...

If the Release of base option is V4R5M0 or greater, F3 to exit and continue with the next step below.

To check your printer's device description for the manufacturer type and model and the status of Host Print Transform:

- At a command line type: **DSPDEVD xxxxx *PRINT** (where xxxxx is the name of the printer, i.e. PRT03); press **ENTER**.
- This will create a printout of the device information for that printer.
 Review the printout. Do not lose or destroy!
- At a command line type: WRKDEVD xxxx (where xxxxx is the name of the printer, i.e. PRT09); press ENTER. (See Sample on page 1-18)
- Type a '2' in front of the printer name; press ENTER. (See page 1-19)
- Check the values in the fields identified as:
 Host Print Transform (TRANSFORM) and
 Manufacturer type and model (MFRTYPMDL); Press F11 to see Keywords.
- If the Host Print Transform option is *YES, and the Manufacturer type and model value matches your printer, press **F3**-Exit and return to page 1-12 of this manual to continue printer setup.
- If the Host Print Transform option is *NO, continue to the next step below
- Position cursor to 'Manufacturer type and model' and press F4-Prompt
- Page through to see if the printer is listed; note exact description

Note: To determine if the printer is listed, use the printer make and model and match it to the list that is displayed when the cursor is placed on the Manufacturer type and model field and **F4** is pressed. Paging through the list, find the manufacturer first and then match the model number. (Example: You own a Lexmark 4039 10D Plus and a Lexmark Optra R. Searching the list, you will find *LEXOPTRA and *IBM4039HP. Pressing the **F1** key will further identify the printer description. Lexmark manufactured printers for IBM for a short period of time, so in this example, use the *IBM4039HP and *LEXOPTRA for above printers. The **HP** at the end of *IBM4039**HP** means that the printer must be in HP mode in order to function correctly. Check the printer manual for setup instructions.)

Press F3 to Exit

If the printer is not listed, this feature is <u>not available</u>. STOP!

If the printer is listed, continue to the next step below.

To change to Host Print Transform, if the printer is NOT attached to a PC:

- First end the printer/writer by typing on a command line:
 ENDWTR xxxx *IMMED (where xxxx is the printer name for the following steps).
- Type WRKCFGSTS *DEVxxxx; press ENTER.
- Type a '2' in front of printer name to 'Vary Off'.
- Go back to WRKDEVD xxxx; press ENTER.
- Type a '2' in front of printer name; press ENTER.
- Change *NO to *YES on Host Print Transform.
- Enter printer type and model on Manufacturer type and model, i.e. *IBM4039HP; press ENTER.
- Type WRKCFGSTS *DEV xxxx; press ENTER.
- Type a '1' in front of printer name to 'Vary On'; press **ENTER**.
- Press F3 to Exit.
- Type STRPRTWTR xxxx; press ENTER.
- All terminals using that printer should be signed off and signed back on.

<u>To change to Host Print Transform if the printer is attached to a PC</u>, configure through Client Access. If you are using Windows, the following steps should apply, otherwise, contact your Data Processing Department.

Using the Client Access printer session, the session which displays the READY
JOB IN PROCESS
ON LINE

printer statuses:

- Click once on Communication
- Click on Configure
- Click on *Printer Setup*
- Click on *Transform print data to ASCII on AS/400*
- Select printer model
- Click OK

This completes the AS/400 printer setup. You must setup the DCS software using the Administrative Sign-on, menu **Option 4** - AFP/HPT Printer Maintenance. (See page 1-12.)

JIS On-line Courts should contact Operations at 1-800-572-1116 for assistance.

To grant authority to a user, type in the User ID. Then change the "N" (no) to "Y" (yes), to allow the user to either upload tickets and/or upload complaints from the prosecutor's office and press **ENTER**.

To change authority to allow or disallow, type over the "Y" and make it "N", or type over the "N" and make it "Y".

To delete a user's authority, type "D" in the Opt field and press **ENTER**.

SOS Code File Update and Print

The SOS Code File Update, **Option 6**, contains all the SOS codes for the court. The SOS Code File Update determines what postcard notices are valid for certain offenses, whether an abstract should be produced, what type of abstract (A, B, S) is required, whether the offense qualifies for certain administrative reports and whether license sanctions could be taken. This file should be updated by the court as new offenses are created or as noticing requirements change on existing ones. The code must be added in this file **BEFORE** it can be referenced in the Statute File.

The file includes the effective date of the SOS code, vehicle type, offense type, description, the notice requirements with the begin and ending dates, when and by whom the code was last updated. The information regarding each individual SOS code may be modified or a new SOS code added at any time. However, a SOS code should **NEVER** be deleted unless it was added in error and **NO** statute codes reference that SOS code.

The SOS code File Print (**Option 7** from the menu) will create a list of all the existing SOS codes in the system. The printout will be sorted in numerical order.

Type an SOS code in the Code field and press **ENTER** to inquire on an existing code or scroll through the entire SOS code file by pressing page/roll keys.

Field Descriptions SOS Code File Update				
Name	Description			
Code	The SOS offense code.			
Code Effective	The date the SOS code became effective by statute and/or the date the SOS code was no longer valid.			
Vehicle Type	This field is to specify if the SOS code is only valid for certain vehicle types, e.g. SOS code 8000 would have a vehicle type of "S" for snowmobile.			
Offense Type	Use this field to indicate of the SOS code is specifically an Alcohol, Drug, Minor in Possession, Speeding, Parking or Handicap Parking code. For example SOS code 1360 should have "M" indicating that is a MIP SOS code.			
Description	The description of the SOS code, e.g. Careless Driving.			
Abstract	An "X" indicates the SOS code is valid to receive an abstract. The Begin/End dates indicate when the code became eligible to receive or not receive an abstract. The date fields for Begin/End only need to be filled in if the abstracting requirements have changed.			
Audit Abs	Type an "X" if the SOS code requires an audit abstract, e.g. 1025, OWI. The Begin/End dates indicate when the code became eligible to receive or not receive an audit abstract. The date fields for Begin/End only need to be filled in if the audit abstracting requirements have changed. (Auditable offenses are alcohol and repeat offender charges.)			
FAC	Type an "X" if the SOS code is eligible to receive an FAC, e.g. 1800, Reckless Driving. The Begin/End dates indicate when the code became eligible to receive or not receive an FAC. The date fields for Begin/End only need to be filled in if the FAC requirements have changed.			
FCJ	Type an "X" if the SOS code is eligible to receive an FCJ, e.g. 2600, Fail to Yield. The Begin/End dates indicate when the code became eligible to receive or not receive an FCJ. The date fields for Begin/End only need to be filled in if the FCJ requirements have changed, e.g. 3200 Drove While License Suspended is valid for an FCJ as of 10/1/99.			

Field Descriptions cont'd				
Name Description				
FCPV	Type an "X" if the SOS code is eligible to receive an FCPV, e.g. 3810, Handicapped Parking. The Begin/End dates indicate when the code became eligible to receive or not receive an FCPV. The date fields for Begin/End only need to be filled in if the FCPV requirements have changed.			
14D	This is to indicate if the SOS code is eligible for a 14-Day notice. Place an "X" in the field for the system to generate the 14-Day notice, e.g. 1810, Careless Driving. The Begin/End dates indicate when the code became eligible to receive or not receive a 14-Day notice. The fields for Begin/End only need to be filled in if the 14-Day noticing requirements changed, e.g. 1020, OUIL/UBAC combined was no longer eligible for a 14-Day notice after 12/31/91.			
NNC	This is to indicate if the SOS code is eligible for a Notice of Non-Compliance (NNC). Place an "X" in the field for the system to generate the NNC notice, e.g. 1360, Minor in Possession. The Begin/End dates indicate when the code became eligible to receive or not receive a NNC notice. The date fields for Begin/End only need to be filled if the NNC noticing requirements have changed, e.g. 1360, MIP receives a NNC as of 10/1/99.			
Susp/Rest	Place an "X" in the field to indicate the SOS code is eligible for a term of suspension or restriction, e.g. 9200, Drug Crime. The Begin/End dates indicate when the code became eligible to receive or not receive a suspension/restriction license term. The date fields for Begin/End only need to be filled in if the noticing requirements have changed, e.g. 1000, OUIL is only valid to receive a license suspension/restricted term if the offense occurred on or before 9/30/99.			
Last Chgd: Chgd By:	The date the code was last changed/updated and the terminal where the change was made.

Purge

In this chapter you learn how to work with the Purge Program. This includes creating pre-lists to determine what criteria to use for actual purge, purging actual records and working with the indices created by the purge program.

Purge Overview

The Purge Sign-On provides the means to purge records to increase space for the processing of files on your system. You may also run a pre-list to see how many records would meet your purge criteria. Pre-lists can be created while users are signed on and updating files. The actual Purge requires **ALL** users to be signed **OFF**.

Before you begin the purge process, make sure that:

- You have done an Entire System Save
- All other District Court Processing has ended
- No one signs on until the purge has <u>COMPLETED</u>
- A scheduled backup does <u>NOT</u> run during the PURGE
- A scheduled power down does **NOT** occur during the PURGE

CONTACT JIS FOR ASSISTANCE BEFORE YOU RUN THE ACTUAL PURGE

User and Password

At the AS/400 Sign On Screen:

- 1) In the *User* field, type in the court ID followed by PURGE, i.e. D9900PURGE.
- 2) Type in the password. (Typically known to the Court Administrator.)
- 3) Press ENTER.

The following screen will be displayed:

Pre-List by Case Number (Includes Count)	The number and list of cases that meet the purge criteria indicated.
Purge	Purges all the selected criteria.
Reproduce Purge Indices from Previous Purge Run	Will run a cumulative index from previous purges.
Copy Purge ROAs and/or Indices to Microfiche Tape	Select this feature if you court chooses to send the purged Register of Actions and/or Indices to a vendor for microfilming.
Purge History	Purges the information that allows the court to reproduce indices from previous purges and is used for defendant history lookups. <i>Note:</i> Records purged from the history file are <i>NO LONGER AVAILABLE</i> from the system.
Purge Bond & T/A	Will allow you to purge the Bond & T/A (Trust and Agency) Records. If case is on the system, the information will still be on individual ROAs.
Purge Abstracts	Will purge from the abstract file.
Purge FAC/FCJ/FCPV	Will purge from the FAC file.

Note: You must choose one of the nine options by placing an "X" in front of the selection.

CONTACT JIS FOR ASSISTANCE BEFORE YOU RUN THE ACTUAL PURGE

Types of Cases to be Purged:

Type **TC** to purge **only** traffic/criminal cases

Type CIVIL to purge only civil cases

Type **BOTH** to purge traffic/criminal and civil cases

Tip: There is a range of days to the right of each case type to assist you. Cases must meet the minimum number of days closed.

Type an "X" in front of the case types you wish to purge. Enter in the number of days old of cases to be purged. Press **ENTER**. You will receive a message on the bottom of your screen, "Press Enter to Confirm selections". Press ENTER to continue or you may modify your selections then press ENTER to continue the purge process. Upon pressing ENTER again and you will receive another message, "Press Enter to run Purge and sign off". **Note:** Pressing ENTER will sign the terminal off automatically and start the purge. If you decide not to run the purge press F24.

When the Purge has completed, ROAs, Alphabetical and Numeric Indices and a purge list with the criteria selected, will be in the output queue called DCSPURGEQ. These files will appear in the output queue under the User "DxxxxPURGE" and the User Data CIVPURGE, TCRPURGE, etc. *Note: The 'xxxx' will be the actual court ID, i.e. D9900PURGE*.

Chapter 2: Purge Administrative - 2004

Indices:

All cases deleted during this purge or any past purges will be included on the Alpha and Numeric Indices if the date field is left blank. Enter today's date if the indices are to **only** include cases from **today's** purge. Any previous purge date can be entered in this field to include cases purged beginning with that purge date through today.

Traffic/Criminal Case Type Selection:

Type an "X" in front of the case type you wish to purge.

There is a Range of Days with the default setting for the minimum and maximum number of days closed for each case type displayed on this screen. You must indicate the number of days a case remains on the computer by typing in the field next to the case types you wish to purge. Note: You are not able to purge case types OD, SD, and FD. Any cases with drug or alcohol charges or cases closed with a balance due, will not purge. Press ENTER.

Note: When Traffic/Criminal Records (cases) are purged, cash records dated 27 months old or older that are not connected to active cases or Trust & Agency records will be included in the purge automatically.

Civil Cases:

Type an "X" in front of the types you wish to purge.

There is a Range of Days with the default setting for the minimum and maximum number of days closed for each case type displayed on this screen. You may select the number of days closed by the closed code used, (i.e. "Dismissals" include close codes that begin with DSE, "Judgments" include close codes that begin with JGE and "Other" includes all other close codes.)

Any case with multiple defendants must have all defendants closed on the case before it will purge. When defendants on a case are closed using different closed codes (i.e. DSE and JGE), the program will look at the number of days indicated for the "highest" close code (the JGE).

Reproduce Purge Indices from Previous Purge Run

This feature is used to obtain a cumulative index from previous purges. Place an "X" in front of the option **Reproduce Purge Indices from Previous Purge Run** and press **ENTER**. The following screen will be displayed:

Press **ENTER** to produce indices selected.

Chapter 2: Purge Administrative - 2004

Types of Cases to be Purged:

Type **TC** to purge **only** traffic/criminal cases

Type **CIVIL** to purge **only** civil cases

Type **BOTH** to purge traffic/criminal and civil cases

Types of Index to be Reproduced:

Type a "X" in front of the index type to be reproduced - Alpha (by name), Numeric (by case number), or both.

Purge Date to be Reproduced:

Enter the beginning purge **Run/from Date** and the ending purge **Run/thru Date** for the purged cases that are to be reproduced on the indices.

To reproduce the indices for all cases currently in the history files, use a **Run/from Date** of <u>000000</u> and a **Run/thru Date** of <u>999999</u>.

To reproduce the purge indices for a specific purge run, enter that purge date in the **Run/from AND Run/thru** date fields.

By pressing F24, the indices will NOT be created and you will return to the Main Menu. Press **ENTER** to reproduce the indices.

Copy Purge ROAs and/or Indices to Microfiche Tape

This feature is selected if the court chooses to send the purge Register of Actions and/or Indices to a vendor for microfilming. Place an "X" in front of the option **Copy Purge ROA's and/or Indices to Microfiche Tape** and press **ENTER**. The following screen will be displayed:

This screen is used to copy the purge spool files (Register of Actions and Alpha and Numeric Indices) to tape for microfiche creation.

- Enter the **tape device name** for tape device you are using (i.e. TAP01)
- Enter the data density of the tape device as *DEVTYPE (this will then
 default to the proper density for your system).

Chapter 2: Purge Administrative - 2004

Initialize the tape:

Place an "X" in this field to initialize the tape(s). *Note: Each tape must be initialized prior to use.*

Display Tape Contents:

Place an "X" in this field to print a directory of what is on the tape. This information will be sent to the DCSPURGEQ output queue. This printout will automatically be generated when you copy any purge file to tape.

To convert the spool files you must know the spool file job number. To get the job numbers for these spool files, press **F5** to display the output queue, then press **F11** (View 2). The following are the spool file names to look for:

Traffic/Criminal	ROAPRT ALPHIDX NUMBIDX	Register of Actions Alphabetical Indices Numeric Indices
Civil	REGACTNS ALPINDEX NUMINDEX	Register of Actions Alphabetical Indices Numeric Indices

The bolded/highlighted columns in the example below are where you will find the file names and job numbers in the output queue.

Press **ENTER** to continue. On the **'Copy Purge Spooled Files**' Screen, place an "X" in front of the spool file to be converted to microfiche followed by the **job number** found in the output queue; press **ENTER**. When the copies have completed, a directory of what is on the tape will be placed in the DCSPURGEQ output queue.

By Pressing F24, the microfiche files will **NO**T be created and you will be returned to the Main Menu.

Note: All spool files for indices can be copied to the same tape if selected at the same time. After a fiche tape has been created and another spool file is to be converted, a separate tape will be necessary. Press **F6** to display your printer messages. ROAs must be on a separate tape from the indices. (Civil and Traffic/Criminal ROAs may be on the same tape.)

Purge Defendant History Files

The History Files are the files that contain basic case information on those cases that have been previously purged. This information is used for defendant history lookups and for creation of the cumulative Alpha and Numeric Indices.

Warning: Cases purged from these files will NO LONGER BE AVAILABLE for the Defendant Historu Inquiry (DHI) and Party History Inquiry (PHI) lookups or indices.

Place an "X" in front of the option **Purge Defendant History** and press **ENTER**. The following screen will be displayed:

NOTE: If you do not know the actual purge date, enter
day 01 of the month in which the purge was run.

F24-Previous Menu Help

You may wish to run a Closed Bond List and/or a Closed Restitution List using date ranges from the previous purge date through the current page date prior to requesting this purge.

Note: If a record references a traffic/criminal case that is not closed or references cash records that are not attached to a case, it will **NOT** be purged. If the Traffic/Criminal purge is run prior to this purge, it will remove cash records not attached to a case.

Purge and Print:

Place an "X" after the option **Purge Closed Bond & T/A Records.** Press **ENTER**. After pressing enter a message will appear "Press Enter to run PURGE/REPRINT and return to the Main Menu."

ALL BOND, T/A and CHECK REGISTER records closed for 27 months will be purged with the exception of closed bonds and restitution attached to open cases or referencing cash records that are not attached to a case.

Reprint Only:

Place an "X" after the option Print ALL Purged Records to print cumulative Alpha and Numeric Indices of all purged records to date. To reprint the Alpha and Numeric Indices for a particular purge, enter the date of the actual purge.

Note: If you do not know the actual purge date, enter day 01 of the month in which the purge was run (i.e. 050199).

The purge will create reports (BNDPRGRPT) listing the records deleted and will be located in the output queue DCSPURGEQ.

Soundex

The Soundex is an inquiry only screen used to display either all Traffic/Criminal or all Civil cases which have names that sound like the name used for the request (phonetic spelling). A non-public or sealed case marker is shown in reverse video and cases with an outstanding warrant have a blinking (terminals) or solid red (PCs) **WRNT** code in the status (Sts) Column.

The Soundex Inquiry Screen can be accessed from the District Online Inquiries Menu by typing a name on the "Name/DLN/VPN" field (last name) and pressing **F2** for a Traffic/Criminal inquiry or **F8** for a Civil Inquiry. It can also be accessed by typing SDX in the "NXT" field and the phonetic spelling of the last name in the "INQ" field of the "HOP" line, then press **ENTER**.

The Traffic/Criminal Soundex Inquiry provides additional information upon pressing **F11**. View one is displayed below. The screen displays the defendant name, case number/party/type, the number of counts associated with a case, a short description of Count 1 and the case status.

The Civil inquiry provides the inquired party name, case number, case type, the party type (i.e. P01=Plaintiff, D01=Defendant), the opposing party name and the case status. See page 8 for sample of Civil inquiry screen.

Tip: For more information on the "HOP" line see page 3-35.

Pressing **F11 - Alt View**, allows additional information to be displayed. View two shown below, displays the defendant name, date of birth, driver's license number, vehicle plate number for the case, offense date and partial address.

Combined Calendar

The Combined Calendar Inquiry provides a way to view or print a combined calendar by jurist (judge/magistrate/referee etc), for all JIS courts using the same AS/400, regardless of jurisdiction. This option is only available if the court has multiple JIS applications on the AS/400 (i.e. District, Circuit, Probate, Juvenile or Family).

The Combined Calendar screen can be assessed by pressing **F22** from the District Online Inquiries Menu.

Type in the jurist bar number and indicate whether you want to display (D) or print (P) the calendar; press **ENTER**. Circuit and Probate/Juvenile Courts may schedule by courtroom number. If you choose Courtroom #, the calendar would not display District Court Cases.

Using the HOP Line

The "HOP" Line can be used in the Traffic/Criminal Module to access the Register of Actions (ROA), Name (NAM), Soundex (SDX), Driver License (DLN), Vehicle Plate Number (VPN), or Financial ROA (FIN) inquiry. In the Civil Module the "HOP" line can be used to access the Register of Actions (ROA), Name (NAM), Soundex (SDX), or Financial ROA (FIN) inquiry. Type the three-letter code for the screen you want to access in the "NXT: field (i.e. NAM for a name inquiry). Then, type the name in the "INQ" field and press **ENTER**. If you have a case number for your inquiry, type the case number in the "CASE" field. To access the ROA from this screen you may type in ROA in the "NXT" field and the line number that is assigned to the case on the left of the screen in the "CASE" field and press **ENTER**.
